(204)-293-2942 | adhikar6@myumanitoba.ca |

EDUCATION

Bachelor of Computer Science, B.C.Sc., Honours Co-op

University of Manitoba

09/2024 - Present

Winnipeg, MB

EXPERIENCE

Undergraduate Research Assistant

HCI Lab, University of Manitoba

05/2026 - 09/2026

Winnipeg, MB

- Worked under the supervision of Dr. Celine Latulipe on the BankBox research project as a part of a four-person team.
- Developed and tested banking application for TD banking interface using Angular and TypeScript
- Collaborated with the student research team to implement and evaluate guided learning and test modules for the web based banking application.
- Contributed to web app design discussions, bug fixes and weekly research meetings.

Merchandiser

Costco Garden Centre

05/2025 - 07/2025

Winnipeg, MB

- Assisted customers with locating plants, gardening supplies, and seasonal products while providing friendly customer service.
- Collaborated with the Garden Centre team members to unload, organize, and merchandise incoming shipments in a fast-paced environment.
- Restocked inventory and monitored product quality to ensure healthy plant presentation and product availability.

Community Development Tutor

Peaceful Village

10/2025 - Present

Winnipeg, MB

- Supporting students in setting a small goal everyday to improve academic performance and personal growth.
- Supported students with helpful study habits and exam strategies.
- Managed food logistics for students, including planning, distribution, and ensuring timely availability

Field Canvasser

Leaf Home

03/2025 - 08/2025

Winnipeg, MB

- Built relationships with customers to support ongoing sales and customer retention initiatives.
- Conducted door-to-door outreach to inform community members about local initiatives and services offered by Leaf Home.
- Attended and contributed to weekly boot-camp and team meeting to improve the sales pitch and customer retention

PROJECTS

BankBox | *Angular, HTML, CSS, TypeScript*

Research Project

- Replicated the TD Bank interface using Angular.
- Implemented frontend (Angular) and connected with the backend server, gaining hands-on experience working with APIs.
- Implemented guided learning and test modules to help users navigate through different banking tasks.
- Link: <https://bankbox.cs.umanitoba.ca>

BisonBot | *TypeScript, CSS, Angular, Ollama, Rasa, Python*

Hackathon 2026

- Collaborated with a team of four during a hackathon to develop a chatbot for the University of Manitoba that answers common student questions.
- Primarily handled frontend development using Angular and integrated the frontend with backend services through APIs.
- Link: github.com/devnbihack-cyber/BisonBot

Todo List App | *Angular, Supabase*

Personal Project

- Built a task management app that allows users to create their own account and add tasks with start and expected completion times.
- Implemented both frontend (Angular) and backend (Supabase), gaining hands-on experience in how services work in Angular
- Planning to add email reminder functionality to enhance user experience.
- Link: todo-anjalz.netlify.app

Weather Forecast App | HTML, CSS, JavaScript

Personal Project

- Developed a web application using HTML, CSS, and JavaScript that fetches real-time weather data from a public API.
- Link: anjalweatherforecast.netlify.app

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, Typescript, HTML/CSS, R

Frameworks: Angular, Node.js, Supabase

Developer Tools: Git, VS Code, IntelliJ, Eclipse

Libraries: Maven, Guava

CERTIFICATIONS

Legacy Responsive Web Design V8 (FreeCodeCamp)

- Learned to build fully responsive websites using HTML and CSS.

Legacy JavaScript Algorithms and Data Structures V8 (FreeCodeCamp)

- Built projects such as palindrome checkers and an RPG Creature Search app to strengthen JavaScript fundamentals and learn how to use API.

COMMUNITY INVOLVEMENT

TEDx Winnipeg – HCI Lab Booth Volunteer

University of Manitoba Human-Computer Interaction Lab

- Represented the HCI Lab at TEDx Winnipeg, showcasing ongoing research projects and interactive demonstrations to attendees.
- Engaged with members of the public, explaining human-computer interaction concepts and the goals of current research initiatives.
- Assisted with booth setup, organization, and operation throughout the event to ensure a positive visitor experience.
- Answered questions about research opportunities, technology development, and student involvement within the HCI Lab.

Science Student Ambassador

Faculty of Science, University of Manitoba

- Volunteered at Fall Open House 2025 and Winter Open House 2026 Computer Science booth to promote programs and create a welcoming environment for future students.
- Assisted in setting up and organizing event booths, ensuring materials were prepared and presentations ran smoothly.
- Engaged with visitors to answer questions and provide information about programs and student life.

Logistic Coordinator

Nepali Student Association, University of Manitoba

- Coordinated event logistics, including venue booking, scheduling, and resource management.
- Collaborated with team members to ensure smooth execution of cultural and community events.
- Managed communication with vendors and participants to support event planning.
